## **NOTICE TO RESIDENTS**

### **Central Downtown Infrastructure Improvements Project**

#### **North Loudoun Street between Wyck Street and Fairfax Lane**

As part of the Central Downtown Infrastructure Improvements Project, the City's contractor is expected to resume working on N. Loudoun Street on Monday, July 27<sup>th</sup>. Construction and street closures will begin at the Wyck Street end of North Loudoun Street to North Avenue. During construction, sections of North Loudoun Street will be closed to traffic and parking for up to two blocks at a time. Detour routes will be marked clearly and parking is encouraged outside of the active work zone.

Residents will be able to access their homes in the closed-street areas via sidewalks, which will remain open during this phase of the project. City staff will keep residents on North Loudoun Street informed of any potential access interruptions.

As the City posts "No Parking" and "Street Closure" notices, we kindly request that all vehicles be moved out of those areas no later than 7:00am on the closure date indicated. Vehicles that are left in the construction zone will need to be towed to allow construction to begin.

We realize that this project may be an inconvenience for you and your neighborhood. We apologize for this inconvenience but hope that you understand the importance of completing these much-needed improvements. Thank you very much for your patience and cooperation.

Should you have any questions, please contact the Public Services Department at 540-667-1815.
